

Stick Family

Gather your equipment: sticks, string, scissors and googly eyes

1. Find a stick with a "Y" and place on the ground
2. Position your arms (another stick) across the first stick.
3. Take some string and using a square lashing knot (loop over, under and across the sticks). Pull tight and tie together.
4. Add on stickers or googly eyes so your stick can see.
5. Create more so you have a whole stick family.
